

## 10 Day Notice: Marin Street Sewer Replacement Project.

**What:** The project will replace portions of the Marin Street sewer as well as the Marin Street Outfall Structure with larger pipes to accommodate additional wastewater flows projected from Potrero Hill, Dog Patch, Pier 80, Pier 70 and Mission Bay. These facilities are a critical part of wastewater operations and are in need of repair.

**Who:** Ranger Pipelines Incorporated is the contractor working for the SFPUC.

**When:** The anticipated start date for the project is March 2017 with completion scheduled for February 2018. Weather and/or construction issues may impact the schedule.

**Where:** Beginning at the intersection of 3rd and Marin Street and continuing along Marin Street toward Indiana Street and ending at the Marin Street Combined Sewer Discharge outfall (located beneath southbound Highway 280).

### What to expect during construction:

- While the contractor is required to abide by the City's noise and vibration ordinances, neighbors should expect some noise and limited dust during this work. The project team will work to minimize disruption to normal neighborhood activity; however there will be occasional inconveniences due to heavy equipment movement and other construction activities.
- At different phases of the project, some night work may be required.
- Businesses and residents in the work zone will maintain access to their garages, although there may be temporary delays.
- Buses will not be detoured. Traffic will have some temporary delays.
- Parking will be restricted in the work zone. **Please see posted signs for exact details.**
- No interruption in water service or quality is expected during construction. **Advance notice will be given.**

*The Sewer System Improvement Program (SSIP) is a 20-year, multi-billion dollar citywide investment required to upgrade our aging sewer infrastructure to ensure a reliable and seismically safe sewer system now and for generations to come. For more information visit [sfwater.org/SSIP](http://sfwater.org/SSIP).*

Public Utilities Commission

# Clean, efficient, reliable...

Every day, we deliver high-quality, efficient water, power and sewer services to serve the needs of the San Francisco Bay Area.

**Water** – Delivering high-quality water every day

We deliver drinking water by gravity to 2.6 million people and businesses in San Francisco, Alameda, Santa Clara, and San Mateo counties.

**Power** – Generating clean energy for vital City services

We generate clean, reliable energy to power vital City services, such as MUNI, streetlights, schools and public buildings.

**Sewer** – Protecting public health and the environment

Through our treatment system and innovative programs, we manage sewage and stormwater, and prevent pollution of the bay and ocean.

Please help conserve water.
