   (Ritchie)

   Mr. Steve Ritchie stated the Joint Powers Agreement would be with five Irrigation Districts, and noted it would allow the Commission to participate in the development of strategies and plans, for mutual benefit, on the San Joaquin River.
In response to Mr. Drekmeier’s concerns, Mr. Ritchie stated there are many instances where the SFPUC has to work closely with our partners on the river to ensure we are working with the context of what we consider the best and most effective regulation, in terms of flows that can be provided. He noted that the Agreement would allow San Francisco to not participate in specific projects if we find they are not in our best interests as an entity.

President Moran noted that this was a successor organization to the San Joaquin River Group Authority.

City Attorney Donn Furman stated that the Authority cannot take any action without the consent of all parties, including San Francisco, and indicated that there was also a provision that says the Association will not take an action contrary to the interest of any party, and that there were numerous protections in the Joint Powers Agreement for San Francisco.
