Call to Order

Leamon Abrams welcomed Working Group members to the tour.

Presentation (George Engel, SEP Plant Superintendent, SFPUC)

George Engel provided a presentation on the history and current state of San Francisco's sewer system and the operations of the Southeast Treatment Plant (SEP A map was distributed for use during the tour to provide Working Group Members with an orientation to the plant and the projects in Phase I of the SSIP.

SEP Tour (George Engel, Carolyn Chiu, Senior Project Manager; Jignesh Deesai, Senior Project Manager, Headworks)

George Engel and SFPUC senior project managers Carolyn Chiu (biosolids digesters facilities project) and Jignesh Deesai (headworks and other SEP improvements) led Working Group members on a tour of the Southeast Treatment Plant. The group observed the various treatment processes, beginning with where the wastewater enters the SEP at the Headworks facilities, to the end when it is transformed into biosolids. Working Group members observed the plant's aging infrastructure, commenting on the critical need for upgrades and improvements.

"I want to send a brief note about my tour of the SEP; it was an incredible, eye-opening experience, incredibly informative and remarkable experience. I urge each of my colleagues on the Southeast Working Group to take the tour" Sunny Schwartz

Adjournment

Leamon Abrams thanked Working Group members for attending the tour and reminded them about the upcoming July 16th meeting.
