SECTION 2. Subject to other applicable provisions of this Agreement, the Employer agrees that when subcontracting for prefabrication of materials covered herein, such prefabrication shall be subcontracted to fabricators who pay their employees engaged in such fabrication not less than the prevailing wage for comparable sheet metal fabrication, as established under provisions of this Agreement.

SECTION 2. When employed outside of the limits specified in Section 1 of this Article, and within the jurisdiction of the Union, employees shall provide transportation for themselves which will assure their arrival at the limits specified in Section 1 of this Article at regular starting time, and the Employer shall provide or pay for all additional transportation for such jobs, including
transportation from such job back to the limits specified in Section 1 of this Article which will assure arrival at such limits at quitting time. As an alternative to the foregoing method, travel expense may be paid by a zone or other method of payment. If this alternative method is used, it will be provided in a written addendum attached hereto. If an Employer sends an employee to perform work outside of the territorial jurisdiction of the United States of America or Canada, travel pay and/or subsistence arrangements shall be negotiated locally.

The parties intend travel pay to fairly compensate employees for travel, not to place contractors at a competitive disadvantage due to geographic location or to create artificial barriers against out-of-area contractors.

**ARTICLE VIII – WAGES, WAGE EQUALIZATION, BENEFITS AND INDUSTRY FUNDS**

**SECTION 1.** The minimum rate of wages for journeymen sheet metal workers covered by this Agreement when employed in a shop or on a job within the jurisdiction of the Union to perform any work specified in Article I of this Agreement shall be in accordance with the attached addendums, except hereinafter specified in Section 2 of this Article.

**SECTION 2.** On all work specified in Article I of this Agreement, fabricated and/or assembled by journeymen, apprentices, pre-apprentices and/or classified sheet metal workers within the jurisdiction of this Union, or elsewhere, for erection and/or installation within the jurisdiction of any other collective bargaining areas or local union affiliated with Sheet Metal Workers’ International Association, whose established wage scale is higher than the wage scale specified in this Agreement, the higher wage scale of the jobsite Union shall be paid to the employees employed on such work in the home shop or sent to the jobsite.

1. Ventilators
2. Louvers
3. Automatic and fire dampers
4. Radiator and air conditioning unit enclosures
5. Fabricated pipe and fittings for residential installations and light commercial work as defined in the locality
6. Mixing (attenuation) boxes
7. Plastic skylights
8. Air diffusers, grilles, registers
9. Sound attenuators
10. Chutes
11. Double-wall panel plenums
12. Angle rings

**SECTION 4.** The provisions of section 2 of this article shall not be applicable to AIR POLLUTION CONTROL SYSTEMS fabricated for the purpose of removing air pollutants, excluding air conditioning, heating and ventilating systems. In addition, the provisions of Section 2 of this Article will not be applicable to the manufacture of spiral pipe and fittings for high pressure systems, except when such a provision is contained in the local union agreement or addendum to the SFUA.
SECTION 5. Except as provided in Sections 2 and 6 of this Article, the Employer agrees that journeymen, apprentices, pre-apprentice and classified sheet metal workers hired outside the territorial jurisdiction of this Agreement shall receive the wage scale and working conditions of the local Agreement covering the territory in which such work is performed or supervised.

SECTION 6. When the Employer has any work specified in Article I of this Agreement to be performed outside of the area covered by this Agreement and within the area covered by another Agreement with another local union affiliated with the Sheet Metal Workers' International Association, and qualified sheet metal workers are available in such area, the Employer may send no more than two (2) sheet metal workers per job into such area to perform any work which the Employer deems necessary, both of whom shall be from the Employer's home jurisdiction. All additional sheet metal workers shall come from the area in which the work is to be performed. Journeymen sheet metal workers covered by this Agreement who are sent outside of the area covered by this Agreement shall be paid at least the established minimum wage scale specified in Section 1 of this Article but in no case less than the established wage scale of the local Agreement covering the territory in which such work is performed or supervised, plus all necessary transportation, travel time, board and expenses while employed in that area, and the Employer shall be otherwise governed by the established working conditions of the local Agreement. If employees are sent into an area where there is no local Agreement of the Sheet Metal Workers' International Association covering the area then the minimum conditions of the home local union shall apply.

SECTION 7. In applying the provisions of Sections 2, 5, and 6 of this Article VIII, the term “wage scale” shall include the value of all applicable hourly contractual benefits in addition to the hourly wage rate provided in said Sections. (Commonly referred to as “total package”)

SECTION 8. Welfare benefit contributions shall not be duplicated.

When sheet metal workers are employed temporarily outside the jurisdiction of their home local union, the parties signatory to this Agreement agree to arrange through the Health and Welfare Trust Fund to transmit health and welfare contributions made on behalf of the employee to the Health and Welfare Trust Fund in the employee's home local union.

The parties to this Agreement agree to establish a system for continuing health and welfare coverage for employees working temporarily outside the jurisdiction of the local collective bargaining agreement when health and welfare contributions are transmitted on their behalf by trust funds from other areas.

When sheet metal workers are temporarily employed outside the jurisdiction of their home local union, the parties signatory to this agreement shall arrange to transmit any 401(k) or 401(a) contributions required to be made to a 401 plan where the work is performed to a 401 plan established for the employee's home local union.

This obligation is conditioned upon a suitable reciprocity arrangement being agreed to by the trustees of such plans in accordance to applicable state and federal laws.

SECTION 9. Wages at the established rates specified herein shall be paid weekly in the shop or on the job at or before quitting time on the same day of each week, and no more than three (3) days' pay will be withheld. Alternative payroll procedures, i.e., electronic and/or automatic deposit may
be negotiated locally. However, employees when discharged shall be paid in full. In accordance to the recently adopted Code of Excellence, a Lay-Off Slip will be given to all employees at time of lay off. (Lay-Off slips will be provided by the Union)

**FRESNO Area Only:** Any employee who is discharged, laid off or terminated for any reason (other than quitting) under conditions where he must return to a job site or shop to get his tools or personal belongings shall be paid for all such time at his regular straight time rate of pay, from the time of termination of employment. Employees should be given at least thirty (30) minutes notice of termination.

**SECTION 10.** Journeymen, apprentice, pre-apprentice and classified sheet metal workers who report for work by direction of the Employer, and are not placed to work, shall be entitled to two (2) hours’ pay at the established rate. This provision, however, shall not apply under conditions over which the Employer has no control.

**SECTION 11.** Each Employer covered by this Agreement shall employ at least one (1) journeyman sheet metal worker who is not a member of the firm on all work specified in Article I of this Agreement. However, it will be permissible for an owner-member to be the journeyman sheet metal worker.

**SECTION 12(a).** Contributions provided for in Section 12(b) of this Article will be used to promote programs of industry education, training, negotiation and administration of collective bargaining agreements, research and promotion, such programs serving to expand the market for the services of the Sheet Metal Industry, improve the technical and business skills of Employers, stabilize and improve Employer-Union relations, and promote, support and improve the employment opportunities for employees. No part of any such payments, however, shall be used for any other purpose except as expressly specified above.

(b). The Employer shall pay the Sheet Metal and Air Conditioning Contractors’ National Industry Fund of the United States (IFUS) seven cents ($0.07) per hour for each hour worked on and after the effective date of this Agreement by each employee of the Employer covered by this Agreement. Payment shall be made on or before the 20th day of the succeeding month and shall be remitted to IFUS, 4201 Lafayette Center Drive, Chantilly, Virginia, 20151-1209, or for the purpose of transmittal, through a designated third party administrator or the local SMACNA chapter

(c). The IFUS shall submit to the Sheet Metal Workers’ International Association not less often than semi-annually written reports describing accurately and in reasonable detail the nature of activities in which it is engaged or which it supports directly or indirectly with any of its funds. One time per year, the IFUS shall include in such written report a financial statement attested to by a certified public accountant containing its balance sheet and detailed statement of annual receipts and disbursements. Further specific detailed information in regard to IFUS activities or its receipts and/or expenditures shall be furnished to the Sheet Metal Workers’ International Association upon written request

(d). Grievances concerning use of IFUS funds for purposes prohibited under Section 12(a) or for violations of other subsections of this Section may be processed by the Sheet Metal Workers’ International Association directly to the National Joint Adjustment Board under the provisions of Article X of this Agreement. In the event such proceeding results in a deadlock, either party
may, upon ten (10) days notice to the other party, submit the issue to final and binding arbitration. The Arbitrator shall be selected by the Co-Chairmen of the National Joint Adjustment Board. The Arbitrator shall be authorized to impose any remedial order he deems appropriate for violation of this Section, including termination of the Employer’s obligation to contribute to the IFUS. The authority of the Arbitrator is expressly limited to a determination of a deadlocked issue under this Section, (Section 12, Article VIII), and no other.

SECTION 13(a). Contributions provided for in Section 13(b) of this Article will be used to promote programs of industry education, training, negotiation and administration of collective bargaining agreements, research and promotion, such programs serving to expand the market for the services of the Sheet Metal Industry, improve the technical and business skills of Employers, stabilize and improve Employer-Union relations, and promote, support and improve the employment opportunities for employees. No part of any such payments, however, shall be used for any other purpose except as expressly specified above.

(b). The Employer shall pay to their affiliated SMACNA chapter (the local industry fund, see attached wage and fringe sheets, currently $0.43 per hour in Sacramento, $0.40 per hour in Stockton and Fresno, $0.36 per hour in Modesto, $0.30 per hour in Redding), for each hour worked on or after the effective date of this Agreement by each employee of the Employer covered by this Agreement. Payment shall be made monthly on or before the 20th day of the succeeding month.

(c). The local industry fund shall furnish to the Business Manager of the Union, not less often than semi-annually, written reports describing in reasonable detail the nature of activities in which it is engaged or which it supports directly or indirectly with any of its funds. One time per year, the local industry fund shall include in such written report, a financial statement attested to by a certified public accountant and containing its balance sheet and detailed statement of receipts and disbursements. Further specific detailed information in regard to local industry fund activities or its receipts and/or disbursements shall be furnished to the Business Manager of the Union upon his written request.

(d). Grievances concerning use of local industry fund monies to which an Employer shall contribute for purposes prohibited under Section 13(a) or for violations of other subsections of this Section shall be handled under the provisions of Article X of this Agreement. The National Joint Adjustment Board shall be authorized to impose any remedial order for violation of this Section, including termination of the Employer’s obligation to contribute to the local industry fund.

SECTION 14. The Union and Employer recognize that the contributions provided in Sections 12(b) and 13(b) of this Article support activities that benefit the entire sheet metal industry. It is essential that the Employer support these activities, even though it may be performing sheet metal work under the provisions of a separate project agreement or maintenance agreement.

Therefore, hours worked for purposes of determining the contributions required under Sections 12(b) and 13(b) of this Article shall include all hours worked by each employee of the Employer under any project agreement or maintenance agreement, unless specifically excluded by the terms of a written addendum that is negotiated by the Contractors’ Association and the Local Union that are parties to this Agreement.
SECTION 15. Effective as of the date of this Agreement the Employers will contribute to the International Training Institute for the Sheet Metal and Air Conditioning Industry (ITI) twelve cents ($0.12) per hour for each hour worked by each employee of the Employer covered by this Agreement. Payment shall be made on or before the 20th day of the succeeding month and shall be remitted as designated by the Trustees of the ITI, or for purposes of collection and transmittal through the appropriate designated third party administrator (currently BeneSys).

Effective as of the date of this Agreement the Employers will contribute to the National Energy Management Institute Committee (NEMIC), a jointly administered trust fund, three cents ($0.03) per hour for each hour worked by each employee of the Employer covered by this Agreement. Payment shall be made on or before the 20th day of the succeeding month and shall be remitted as designated by the Trustees of the NEMIC, or for the purposes of collection and transmittal through the appropriate designated third party administrator (currently BeneSys).

Effective as of the date of this Agreement the Employers will contribute to the Sheet Metal Occupational Health Institute Trust (SMOHIT) two cents ($0.02) per hour for each hour worked by each employee of the Employer covered by this Agreement until the SMOHIT Trustees determine that the Trust is financially self-sufficient. Payment shall be made on or before the 20th day of the succeeding month and shall be remitted as designated by the Trustees of SMOHIT, or for purposes of collection and transmittal through the appropriate designated third party administrator (currently BeneSys).

The parties agree to be bound by the separate Agreements and Declarations of Trusts establishing the International Training Institute for the Sheet Metal and Air Conditioning Industry, the National Energy Management Institute Committee, the Sheet Metal Occupational Health Institute Trust, and the Industry Fund of the United States and the separate agreements and declarations of trusts of all other local or national programs to which it has been agreed that contributions will be made. In addition, the parties agree to be bound by any amendments to said trust agreements as may be made from time to time and hereby designate as their representatives on the Board of Trustees such trustees as are named together with any successors who may be appointed pursuant to said agreements.

The parties authorize the trustees of all national funds to cooperatively establish uniform collection procedures to provide for efficient and effective operation of the various national trusts.

SECTION 16. In the event that the Employer becomes delinquent in making contributions to any national or local Fund, the Union may withdraw all employees from the service of the Employer within 10 days notice of such delinquency by the trustees or the union. The withdrawal of such employees from the service of the Employer shall not constitute a violation of any provision of this Agreement.

SECTION 17(a). The Employer shall comply with any bonding provisions governing local Funds that may be negotiated by the local parties and set forth as a written Addendum to this Agreement, or as prescribed by an associated funds trust agreement. The Employer shall likewise comply with bonding requirements established by the Trustees of the National Funds.

(b). When an Employer is performing any work specified in Article I of this Agreement outside of the area covered by this Agreement, and within the area covered by another Agreement with
a local union affiliated with the Sheet Metal Workers’ International Association, the Employer shall comply with uniformly applied bonding requirements of that local area that are reasonable and necessary to ensure the timely payment of any contribution that may be required to local and national Funds, but in no event shall such bonds be in excess of three (3) months estimated contributions to local and national Funds.

(e) An Employer that has been delinquent in making contributions to any national or local fund shall, upon written notification of the trustees or local union, make the specified payment to such fund at weekly intervals. Such obligation shall continue until the Employer has not been delinquent in making contributions for a period of 12 consecutive months.

ARTICLE IX – TOOLS AND TRANSPORTATION

SECTION 1. Journeymen, apprentice, pre-apprentice and classified sheet metal workers covered by this Agreement shall provide for themselves all necessary hand tools. The Union and the Employer have established a standardized tool list, which shall be set forth as a written addendum attached hereto.

SECTION 2. Journeymen, apprentice, pre-apprentice and classified sheet metal workers covered by this Agreement shall not be permitted or required as a condition of employment to furnish the use of automobile or other conveyance to transport men, tools, equipment or materials from shop to job, from job to job, or from job to shop; facilities for such transportation to be provided by the Employer. This provision shall not restrict the use of an automobile or other conveyance to transport its owner and personal tools from home to shop or job at starting time or from shop or job to home at quitting time.

ARTICLE X – GRIEVANCE PROCEDURE

The Union and the Employer, whether party to this Agreement independently or as a member of a multi-employer bargaining unit, agree to utilize and be bound by this Article.

SECTION 1. Grievances of the Employer or the Union, arising out of interpretation or enforcement of this Agreement, shall be settled between the Employer directly involved and the duly authorized representative of the Union, if possible. Both parties may participate in conferences through representatives of their choice. The local Employers’ Association or the Local Union, on its own initiative, may submit grievances for determination by the Board as provided in this Section. The grievance procedure set forth in this Article applies only to labor-management disputes.

To be valid, grievances must be raised within thirty (30) calendar days following the occurrence giving rise to the grievance, or, if the occurrence was not ascertainable, within thirty (30) calendar days of the first knowledge of the facts giving rise to the grievance.

SECTION 2. Grievances not settled as provided in Section 1 of this Article may be appealed by either party to the Local Joint Adjustment Board where the work was performed or in the jurisdiction of the Employer’s home local and such Board shall meet promptly on a date mutually agreeable to the members of the Board, but in no case more than fourteen (14) calendar days following the request for its services, unless the time is extended by mutual agreement of the parties or Local Joint Adjustment Board. The Board shall consist of representatives of the Union and of the local
Employers' Association and both sides shall cast an equal number of votes at each meeting. Except in the case of a deadlock, a decision of a Local Joint Adjustment Board shall be final and binding.

Notice of appeal to the Local Joint Adjustment Board shall be given within thirty (30) days after termination of the procedures prescribed in Section 1 of this Article, unless the time is extended by a mutual agreement of the parties.

SECTION 3. Grievances not disposed of under the procedure prescribed in Section 2 of this Article, because of a deadlock or failure of such Board to act, may be appealed jointly or by either party to a Panel, consisting of one (1) representative appointed by the Labor Co-Chairman of the National Joint Adjustment Board and one (1) representative appointed by the Management Co-Chairman of the National Joint Adjustment Board. Appeals shall be mailed to the National Joint Adjustment Board.* Notice of appeal to the Panel shall be given within thirty (30) days after termination of the procedures prescribed in Section 2 of this Article. Such Panel shall meet promptly but in no event more than fourteen (14) calendar days following receipt of such appeal, unless such time is extended by mutual agreement of the Panel members. Except in case of deadlock, the decision of the Panel shall be final and binding.

In establishing the grievance procedure of the Standard Form of Union Agreement, it was the intent of Sheet Metal Workers' International Association and the Sheet Metal and Air Conditioning Contractors' National Association, Inc. to establish a method for resolving grievances permitting appeals for out-of-area Employers from the grievance arbitration procedures established for the territory in which work is performed. An Employer who was not a party to the Labor Agreement of the area in which the work in dispute is performed may appeal the decision of the Local Joint Adjustment Board from that area, including a unanimous decision, as well as a decision of any alternative arbitration tribunal established for that area, and request a Panel hearing as set forth in Section 3 of this Article, providing such appeal is approved by the Co-Chairmen of the National Joint Adjustment Board. Such a right of appeal shall exist despite any contrary provision in the agreement covering the area in which the work is performed.

For the purposes of this Section, an Employer who is party to the Labor Agreement of the area in which the work in dispute is performed, but has no permanent shop within the area served by the Local Joint Adjustment Board that rendered the unanimous decision, may also be entitled to appeal a deadlocked or unanimous Local Joint Adjustment Board decision, and request a Panel hearing.

SECTION 4. Grievances not settled as provided in Section 3 of this Article may be appealed jointly or by either party to the National Joint Adjustment Board. Submissions shall be made and decisions rendered under such procedures as may be prescribed by such Board. Appeals to the National Joint Adjustment Board shall be submitted within thirty (30) days after termination of the procedures described in Section 3 of this Article. The Procedural Rules of the National Joint Adjustment Board are incorporated in this Agreement as though set out in their entirety. (Copies of the procedures may be obtained from the National Joint Adjustment Board.*)

SECTION 5. A Local Joint Adjustment Board, Panel and the National Joint Adjustment Board are empowered to render such decisions and grant such relief to either party as they deem necessary and proper, including awards of damages or other compensation.
SECTION 6. In the event of non-compliance within thirty (30) calendar days following the mailing of a decision of a Local Joint Adjustment Board, Panel or the National Joint Adjustment Board, a local party may enforce the award by any means including proceedings in a court of competent jurisdiction in accord with applicable state and federal law. If the party seeking to enforce the award prevails in litigation, such party shall be entitled to its costs and attorney's fees in addition to such other relief as is directed by the courts. Any party that unsuccessfully challenges the validity of an award in a legal proceeding shall also be liable for the costs and attorneys' fees of the opposing parties in the legal proceedings.

*All correspondence to the National Joint Adjustment Board shall be sent to the following address:

National Joint Adjustment Board

P.O. Box 220956
Chantilly, VA 20153-0956

or-

4201 Lafayette Center Drive
Chantilly, VA 20151-1209.

SECTION 7. Failure to exercise the right of appeal at any step thereof within the time limit provided therefore shall void any right of appeal applicable to the facts and remedies of the grievances involved. There shall be no cessation of work by strike or lockout during the pendency of the procedures provided for in this Article. Except in case of deadlock, the decision of the National Joint Adjustment Board shall be final and binding.

SECTION 8. In addition to the settlement of grievances arising out of interpretation or enforcement of this Agreement as set forth in the preceding sections of this Article, any controversy or dispute arising out of the failure of the parties to negotiate a renewal of this Agreement shall be settled as hereinafter provided:

(a). Should the negotiations for a renewal of this Agreement or negotiations regarding a wage/fringe reopener become deadlocked in the opinion of the Union representative(s) or of the Employer’s representative(s), or both, notice to that effect shall be given to the National Joint Adjustment Board.

If the Co-Chairmen of the National Joint Adjustment Board believe the dispute might be adjusted without going to final hearing before the National Joint Adjustment Board, each will then designate a Panel representative who shall proceed to the locale where the dispute exists as soon as convenient, attempt to conciliate the differences between the parties and bring about a mutually acceptable agreement. If such Panel representatives or either of them conclude that they cannot resolve the dispute, the parties thereto and the Co-Chairmen of the National Joint Adjustment Board shall be promptly so notified without recommendation from the Panel representatives. Should the Co-Chairmen of the National Joint Adjustment Board fail or decline to appoint a Panel member or should notice of failure of the Panel representatives to resolve the dispute be given, the parties shall promptly be notified so that either party may submit the dispute to the National Joint Adjustment Board.

In addition to the mediation procedure set forth above or as an alternate thereto, the Co-Chairmen of the National Joint Adjustment Board may each designate a member to serve as a Subcommittee and hear the dispute in the local area. Such Subcommittees shall function as arbitrators and are authorized to resolve all or part of the issues. They are not, however, authorized to deadlock and
the matter shall be heard by the National Joint Adjustment Board in the event a Subcommittee is unable to direct an entire resolution of the dispute.

The dispute shall be submitted to the National Joint Adjustment Board pursuant to the rules as established and modified from time to time by the National Joint Adjustment Board. The unanimous decision of said Board shall be final and binding upon the parties, reduced to writing, signed and mailed to the parties as soon as possible after the decision has been reached. There shall be no cessation of work by strike or lockout unless and until said Board fails to reach a unanimous decision and the parties have received written notification of its failure.

(b). Any application to the National Joint Adjustment Board shall be upon forms prepared for that purpose subject to any changes which may be decided by the Board from time to time. The representatives of the parties who appear at the hearing will be given the opportunity to present oral argument and to answer any questions raised by members of the Board. Any briefs filed by either party including copies of pertinent exhibits shall also be exchanged between the parties and filed with the National Joint Adjustment Board at least twenty-four (24) hours in advance of the hearing.

(c). The National Joint Adjustment Board shall have the right to establish time limits which must be met with respect to each and every step or procedure contained in this Section. In addition, the Co-Chairmen of the National Joint Adjustment Board shall have the right to designate time limits which will be applicable to any particular case and any step therein which may be communicated to the parties by mail, facsimile or telephone notification.

(d). Unless a different date is agreed upon mutually between the parties or is directed by the unanimous decision of the National Joint Adjustment Board, all effective dates in the new agreement shall be retroactive to the date immediately following the expiration date of the expiring agreement.

SECTION 9. Employers not contributing to the Industry Fund of the United States (IFUS) will be assessed a fee to be determined periodically by the Administrator of the National Joint Adjustment Board. Proceeds will be used to reimburse IFUS for costs of arbitration under the provisions of Article X.

SECTION 10. In addition to the settlement of disputes provided for in Sections 1 through 8 of this Article, either party may invoke the services of the National Joint Adjustment Board to resolve disputes over the initial establishment of terms for specialty addenda, if the provisions of Article X have been adopted in their entirety, and without modification.

Such a dispute may be submitted upon the request of either party any time that local negotiations for such an agreement have been unsuccessful. Such a dispute shall be submitted to the National Joint Adjustment Board pursuant to the rules as established and modified from time to time by said Board. The unanimous decision of said Board shall be final and binding upon the parties. There shall be no strike or lockout over such a dispute.

SECTION 11. In administering and conducting dispute resolution activities under the arbitration procedures of the Standard Form of Union Agreement, the National Joint Adjustment Board, the Sheet Metal Workers’ International Association, the Sheet Metal and Air Conditioning Contractors’ National Association, Inc., and their representatives, are functioning as arbitrators and not
as the representative of any entity that is party to such dispute. Therefore, they shall enjoy all of the rights, privileges, and immunities afforded to arbitrators under applicable law.

ARTICLE XI – JOINT APPRENTICESHIP

SECTION 1. All duly qualified apprentices shall be under the supervision and control of a Joint Apprenticeship and Training Committee composed of an equal number of trustees, half of whom shall be selected by the Employer, and half by the Union. There shall be a minimum of 4 trustees. Said Joint Apprenticeship and Training Committee shall formulate and make operative such rules and regulations as they may deem necessary and which do not conflict with the specific terms of this Agreement, to govern eligibility, registration, education, transfer, wages, hours, working conditions of duly qualified apprentices and the operation of an adequate apprentice system to meet the needs and requirements of the trade. Said rules and regulations when formulated and adopted by the parties hereto shall be recognized as part of this Agreement.

SECTION 2. The Joint Apprenticeship and Training Committee designated herein shall serve for the life of this Agreement, except that vacancies in said Joint Apprenticeship and Training Committee caused by resignation or otherwise, may be filled by either party hereto, and it is hereby mutually agreed by both parties hereto, that they will individually and collectively cooperate to the extent that duly qualified apprentices be given every opportunity to secure proper technical and practical education experience in the trade, under the supervision of the Joint Apprenticeship and Training Committee.

(a) The parties will review the needs for specialized and skill-upgrade training and cooperate to establish necessary programs which will then be supervised by the Joint Apprenticeship Training Committee.

SECTION 3. It is the understanding of the parties to this Agreement that the funds contributed by signatory Employers to the International Training Institute and any Local Joint Apprenticeship and Training Fund (Local JATC) will not be used to train apprentices or journeymen who will be employed by employers in the Sheet Metal Industry not signatory to a collective bargaining agreement providing for contributions to the International Training Institute and a Local JATC. Therefore, the trustees of the International Training Institute and Local JATC shall adopt and implement a Scholarship Loan Agreement Program which will require apprentices and journeymen employed by signatory Employers to repay the cost of training either by service following training within the union sector of the industry or by actual repayment of the cost of training if the individual goes to work for a non-signatory Employer in the Sheet Metal Industry. The cost of training shall include the reasonable value of all International Training Institute and Local JATC materials, facilities and personnel utilized in training. If a Local JATC does not implement the Scholarship Loan Agreement, the Local JATC shall be prohibited from utilizing International Training Institute materials and programs.

SECTION 4. It is hereby agreed that the Employer shall apply to their respective Joint Apprenticeship and Training Committee and that Joint Apprenticeship and Training Committee shall grant apprentices based on ratio compared to the amount of journeyman the Employer regularly employs throughout the year, unless superseded by a locally negotiated ratio. Provided, however, an Employer will not be entitled to a new apprentice if the Employer has an apprentice on layoff for lack of work. (See Addendum 1 for each specific areas negotiated apprentice ratios)
SECTION 5. Each apprentice shall serve an apprenticeship of up to five (5) years and such apprentices shall not be in charge of work on any job and shall work under the supervision of a journeyman until apprenticeship terms have been completed and they have qualified as journeymen.

SECTION 6. A graduated wage scale similar to that shown below which is based on the journeyman taxable wage rate, shall be established for apprentices. The scale may vary based on local market conditions and recruiting requirements. (i.e. higher percentages for service apprentices)

This Section shall not have the effect of reducing the wage progression schedule of any apprentice who was indentured prior to the effective date of this Agreement. (See addendums for specific counties negotiated percentages)

SECTION 7. The parties will establish on a local basis the SMWIA Youth-to-Youth program (the program) and the procedures to enable all apprentices to participate in the program. The activities of the program that deal with organizing and other traditional union activities shall be funded by the Local Union through a check-off in compliance with the provisions of Section 302(c) of the Labor-Management Relations Act of 1947. Activities that may be funded by Employer contributions shall be so funded if, and to the extent, the parties shall agree locally to sponsor and implement the same.

SECTION 8. The parties agree that concentrated apprenticeship training is preferable to night-schooling and urge the Joint Apprenticeship and Training Committee to implement concentrated training during the term of this Agreement.

The parties recognize that previous experience in the industry can be considered when evaluating and placing sheet metal workers into the apprenticeship program and the JATC shall work cooperatively with the parties in establishing standards for placing employees into the program. The parties shall also address the need to provide continuity in health care for those workers entering the program with prior experience in the industry.

SECTION 9. The parties agree that career-long skill upgrade training is necessary for an effective workforce and agree to undertake those measures available to them to encourage continuing training for sheet metal journeymen.

ARTICLE XII – PRE-APPRENTICE

SECTION 1. It is hereby agreed that the Employer shall apply to their respective Joint Apprenticeship and Training Committee and that Joint Apprenticeship and Training Committee shall grant pre-apprentices based on a ratio compared to the amount of apprentices the Employer regularly
employs throughout the year, unless superseded by a locally negotiated ratio. (See addendums for county specific availability and negotiated pre-apprentice ratios)

Any apprentice of the Employer on layoff at the effective date of this Agreement must be rehired before said Employer is entitled to any pre-apprentice. Thereafter, the same conditions and ratios shall apply.

In the event the Employer is entitled to employ a pre-apprentice and the Union fails to comply with the Employer’s written request to furnish a pre-apprentice within forty-eight (48) hours, the Employer may hire such employees and refer them to the Joint Apprenticeship and Training Committee for enrollment. Pre-apprentices shall be enrolled as applicants for future openings in the apprenticeship program. The Joint Apprenticeship and Training Committee shall evaluate the qualifications of pre-apprentices for such openings during the first year of employment. No pre-apprentice shall be retained beyond one (1) year unless the pre-apprentice has been found to be qualified as an applicant.

The wage scale for pre-apprentices shall be a minimum of thirty percent (36%) of the wage rate for journeymen sheet metal workers. Health and welfare, Pension contributions, or any industry fund coverage shall be arranged on behalf of the pre-apprentices by the parties. The parties shall make all necessary arrangements so that any pre-apprentice being reclassified shall experience no break in benefits coverage.

**ARTICLE XIII — CLASSIFIED WORKERS**

Classified workers may perform any work covered by Article I of which they are capable and will work under the general direction of a journeyman. The wage rate for classified workers will be not less than forty percent (40%) of the journeyman wage rate. They shall be covered by the local health and welfare plan. Pension contributions shall be the same percentage as their wage rate. (See addendums for county specific availability and negotiated classified ratios) In the event the Employer is entitled to employ a classified worker and the Union fails to comply with the Employer’s written request to furnish a classified worker within forty-eight (48) hours, the Employer may directly hire such employees, and refer them to the Union.

**ARTICLE XIV — LABOR MANAGEMENT COMMITTEES**

SMACNA and the SMWIA are committed to promoting productive and cooperative Labor-Management relations. In furtherance of this goal, the local Employers association and local union agree to establish a Labor-Management committee which shall meet on a regular basis, but not less often than quarterly, to discuss industry issues of mutual concern. Such committees will strive to improve communications, understand and respond to industry direction and trends and resolve common issues collaboratively.

**ARTICLE XV — NON-DISCRIMINATION**

**SECTION 1.** In applying the terms of this Agreement, and in fulfilling their obligations thereunder, neither the Employer nor the Union will discriminate in any manner prohibited by law.
ARTICLE XVI – SIGNING OF AGREEMENT

SECTION 1. This Agreement and Addenda Numbers One (1) through Three (3) attached hereto shall become effective on the 1st day of June 2007, January 2008 and July 2008 and remain in full force and effect until the individual dates listed in the preamble, on page ,1 and shall continue in force from year to year thereafter unless written notice of reopening is given not less than ninety (90) days prior to the expiration date. In the event such notice of reopening is served, this Agreement shall continue in force and effect until conferences relating thereto have been terminated by either party by written notice, provided, however, that, if this Agreement contains Article X, Section 8, it shall continue in full force and effect until modified by order of the National Joint Adjustment Board or until the procedures under Article X, Section 8 have been otherwise completed.

SECTION 2. If, pursuant to federal or state law, any provision of this Agreement shall be found by a court of competent jurisdiction to be void or unenforceable, all of the other provisions of this Agreement shall remain in full force and effect. The parties agree to meet and negotiate a substitute provision. If negotiations are unsuccessful, the issue may be submitted for resolution by either party pursuant to Article X, Section 8 of this Agreement.

SECTION 3. Notwithstanding any other provision of this Article, or any other Article of this Agreement, whenever an amendment to the Standard Form of Union Agreement shall be adopted by the sponsoring national associations, any party to this Agreement, upon the service of notice to all other parties hereto, shall have this Agreement reopened thirty (30) days thereafter, for the sole and only purpose of attempting to negotiate such amendment or amendments into this Agreement for the duration of the term hereof. There shall be no strike or lockout over this issue.

SECTION 4. Each Employer hereby waives any right it may have to repudiate this Agreement during the term of this Agreement, or during the term of any extension, modification or amendment to this Agreement.

SECTION 5. By execution of this Agreement the Employer authorizes its area SMACNA chapter to act as its collective bargaining representative for all matters relating to this Agreement. The parties agree that the Employer will hereafter be a member of the multi-employer bargaining unit represented by said Association unless this authorization is withdrawn by written notice to the Association and the Union at least one hundred and fifty (150) days prior to the then current expiration date of this Agreement.

See next page for signatures.
In witness whereof, the parties hereto affix their signatures and seal this 8th day of July, 2010

THIS STANDARD FORM OF UNION AGREEMENT HAS PROVIDED FOR THE INCLUSION OF PRE-APPRENTICES AND A REDUCTION OF THE WAGE SCHEDULE FOR NEW APPRENTICES. THE PURPOSE OF THIS IS TO MAKE CONTRACTORS MORE COMPETITIVE WITH NON-UNION COMPETITION. TO ACHIEVE THAT OBJECTIVE EMPLOYERS AGREE TO MINIMIZE MULTIPLE MARKUPS.

The Standard Form of Union Agreement is a recommended contract form that is revised from time to time by the Sheet Metal Workers' International Association and the Sheet Metal and Air Conditioning Contractors' National Association, Inc. In establishing such a recommended contract form, neither the Sheet Metal Workers' International Association, nor the Sheet Metal and Air Conditioning Contractors' National Association Inc. has acted as the bargaining representative of any entity that may adopt all or part of the language of the Standard Form of Union Agreement. Furthermore, neither the Sheet Metal Workers' International Association nor the Sheet Metal and Air Conditioning Contractors' National Association, Inc., shall be deemed to be a party to any such collective bargaining agreement including such language.

ADDENDUM NO.1 TO STANDARD FORM OF UNION AGREEMENT

IT IS HEREBY AGREED, by and between the above signed Employer and Local Union 162 of the Sheet Metal Workers' International Association, that the above signed Employer will abide by all terms and provisions of the Standard Form of Union Agreement A-01-05 with Addendums No. 1, 2 and 3 and Wages, Hours and Working Conditions, and Apprenticeship Standards, entered into by and between the Sheet Metal and Air Conditioning Contractors' National Association Inc. Sacramento Valley, Northern San Joaquin and Central Valley Chapters of SMACNA, and Local Union 162 of Amador, Butte, Colusa, El Dorado, Glenn, Lassen, Modoc, Nevada, Placer, Plumas, Sacramento, Shasta, Sierra, Siskiyou, Sutter, Tehama, Yolo, Yuba, San Joaquin, Alpine, Calaveras, Mariposa, Merced, Stanislaus, Tuolumne, Fresno, Madera, Tulare and Kings Counties, in the State of California and all other signatory parties. The Employers signature hereon shall verify that he is familiar with the conditions and has received a copy of the above mentioned Agreement.

WHEREAS, said agreement provides for amendments thereto at time and in manner specified therein and it is the desire of the parties thereto to amend the aforesaid Agreement in the respects set forth below.

NOW, THEREFORE, it is hereby agreed that without terminating or in any manner affecting the provisions of said continuing Agreement, said Agreement is hereby amended as follows:

a) It is hereby agreed that the provisions set forth herein are a part of Standard Form of Union Agreement, which will be recognized for the separate yearly terms of this agreement.

b) It is further agreed that the three SMACNA chapters' signatory to this agreement retain the right to increase industry fund contributions for their respective bargaining areas without requiring a contract opener.

ITEM 1. WAGES AND FRINGES

The minimum wage rate for journeymen Sheet Metal Workers covered by this Agreement when employed in a shop or on a job within the jurisdiction of the Union to perform any work specified in Article 1 of the Standard Form of Union Agreement shall be in accordance with the wage sheets attached. The negotiated total package increases for each area are listed in the chart below. All increases will be allocated by the Union membership, should the Union fail to notify the Association and Employers of their allocation prior to the effective date then any increase due shall be added to the taxable wage.

During negotiations for previous collective bargaining agreements the union retained the right to allocate the negotiated increases to fringe benefit funds. Due to the enactment of the 2006 Pension Protection Act, the 2008 WRERA and the selection of the NPF Default Schedule the union shall not allocate any portion of the wage/fringe package for the purpose of providing pension benefits to any employee covered by this agreement without the prior approval of the Association ("Employer"). With respect to all other fringe benefits, other than pensions, the Union shall retain the right to allocate the remainder of the negotiated increases consistent with previous practice.

In the event the Union is unable to fill a call within 72 hours (excluding Saturdays, Sundays, and Holidays) the Employer shall be free to hire from any source.

SECTION 3. Local 162 shall select and refer applicants for employment without discrimination by reason of race, color, religion, national origin, age, sex, membership or non-membership in the Union, or by reason of the Union’s by-laws, constitutional provisions, or any other aspect of Union membership.

SECTION 4. No applicant for employment shall be employed or reemployed unless he/she has secured a properly executed dispatch slip. However, telephone dispatches may be made provided the Employee and the Employer secure a properly executed dispatch slip within two (2) days of the commencement of employment. **It shall be the responsibility of the Employee to make sure a properly executed dispatch slip is received by the Employer.**

SECTION 5. Referrals to Local 162 signatory Contractors shall be made from the dispatch office closest to the permanent shop location as selected by of the Contractor on the signature page of this agreement, or at the option of the Contractor, from the dispatch office in the area at which
the job is located. All other Employers shall request referrals from the dispatch list for the contract area at which the work is located. There are six dispatch points within the geographical jurisdiction of Local 162. The three dispatch points within the Sacramento Sector are Sacramento, Chico, and Redding (see Section 10). The dispatch points for the Fresno, Modesto, and Stockton Sectors shall be the Local Union office within each respective area. Dispatch hours shall be Monday through Friday, 8:00 a.m. to 10:00 a.m. and 3:00 p.m. to 5:00 p.m., unless otherwise posted by the dispatch office. A dispatcher may extend these hours if necessary to fill a call.

SECTION 6. Notwithstanding that dispatch shall normally be in chronological order of registration, a call for applicants possessing special skills or qualifications may be filled by dispatch of such applicant regardless of their place on the registration list. In addition, any currently registered Group “A” registrant may solicit Employers signatory to this Local 162 Agreement for the purpose of requesting such Employer call him/her by name, subject to conditions in Section 11 herein. The dispatch office regardless of the applicant’s place on the list shall honor such a call by name. Employers who are not signed to this Local 162 agreement may not be solicited nor call applicants by name. Employers not signed to this Local 162 agreement may request one (1) Foreman per job-site by name. Employee may be moved from job-site to job-site within the same contract area provided they are continuously employed by the same Employer. An Employer may also “re-call” an “A” list registrant to the same jobsite within 30 days of his/her last employment at said site for the same Employer.

SECTION 7. An applicant for employment may be registered on the out-of-work list at only one dispatch office at any time. Each applicant for employment shall be issued a job qualification card by the Union. Misrepresentation of qualifications may result in an applicant’s refusal of employment by the Employer without showup time. An Applicant wishing to change the office at which he/she is registered shall request his/her name be stricken from the out-of-work list maintained at that office. His/Her job qualification card shall be carried or mailed to the dispatch office at which he/she wishes to register. Also, any applicant who is eligible to solicit (see Section 6) and secures employment shall have the responsibility of having his/her card mailed to the office in the area he/she will be working, and shall secure a dispatch slip from said office.

SECTION 8. Local 162 shall maintain for each of its dispatch points a register of applicants for employment established on the basis of the groups listed below. Each Applicant shall be registered in the highest priority group for which he/she is qualified.

GROUP A. Group “A” shall consist of Journeymen Sheet Metal Workers who have worked for a Local 162 signatory Employer at a shop or job located within the territorial jurisdiction of Local 162 within the past one hundred eighty (180) days. A Journeymen may retain group “A” status beyond one hundred eighty (180) days provided he/she has been registered on the out-of-work list, been available for work and has not refused employment for which he/she is qualified.

GROUP B. Group “B” shall consist of all others who have four (4) or more years experience as a Sheet Metal Building Trades Journeyman and pass the Journeyman test administered by the Joint Examining Committee established in Local 162, or who have completed an apprenticeship program recognized by said committee. Group “B” applicants will acquire group “A” status upon attaining residency as defined herein, and completion of 900 hours of employment as a group “B” referral. Group “B” applicants may not solicit employment, nor be called by name by any Employer. Residency for purpose of acquiring group “A” status shall mean the applicant has established a
permanent home, and can prove a commitment to live and work within the territorial jurisdiction of Local 162 to the Joint Examining Committee established in Local 162.

SECTION 9. Dispatch from each priority group shall be by date of registration on a first in first out basis (except as provided in Section 6). Group "A" applicants shall be referred before Group "B" applicants. In the event an "A list" is exhausted at a particular dispatch office, the dispatcher shall ascertain whether any other dispatch office has Group "A" registrants available, and shall offer dispatch to such registrants before referring applicants from Group "B." Employers shall lay off Group "B" referrals when qualified group "A" applicants become available for dispatch. When such conditions exist, the dispatch office shall notify the Employer and the Employer must lay off the group "B" referral(s) within three (3) working days as long as the "A" applicant has the skills and abilities to replace the "B" applicant. Skills and abilities include special certifications or job specific leadership roles that will be pre-designated to each "B" employee, are non-transferable to other work sites and will expire upon completion of the work or 900 hours, whichever occurs first. The union will make every effort to prevent workflow impairment to an employer due to specific worksite/job requirements when requesting this change.

SECTION 10. Travel Provisions Specific to Sacramento, Chico and Redding.

a) Dispatch points shall be established at the following locations: Sacramento, Chico, and Redding.

b) An Employee’s zone of residence as used throughout this Agreement is defined as the dispatch point specified in Paragraph “a” above which is nearest in road miles to the Employee’s actual residence.

c) All Employees required to work at a jobsite outside of their zone of residence shall be paid the subsistence or zone pay specified other than as provided in Paragraph “d” of this section. No Employee shall be entitled to subsistence or zone pay for work at job sites within said Employee’s zone of residence.

d) Except as otherwise provided herein, all requests for Employees by Employers must initially originate through the Union. All Employees shall be dispatched to job sites by the Union in order of rank on the current out-of-work list maintained by the Union. If the requested number of Employees cannot be obtained after completing the initial dispatch procedure, the out-of-work list will be re-contacted in the aforementioned order and Employees whose zone of residence is outside the jobsite shall be offered the work in order of priority on the out-of-work list. In connection therewith, Employees shall be offered the opportunity to work at job sites outside of said Employee’s zone of residence without subsistence or zone pay.

e) No Employee shall be laid off or relieved of employment at one dispatch point in order to avoid payment of subsistence or zone pay as provided for herein. (See 30 day provision in Section 11.)

SECTION 11. Travel Provision Clarification—No employee shall be allowed or required to relocate his/her name from one geographical dispatch office of Local 162 to another for purposes of circumventing any travel, zone pay, mileage, or subsistence language and/or conditions. Therefore, no Employer shall be allowed to request by name any Employee who has, within the last thirty (30) calendar days, been employed by the same Employer within another dispatch area of Local 162. The thirty (30) day provision shall not apply when the Employee is officially re-dispatched
due to the normal chronological order of registration. The thirty (30) day provision shall also not apply when it is necessary for a dispatcher to refer applicants from another dispatch office to fill a call for applicants.

SECTION 12. It will be the responsibility of all Employees that have been dispatched to re-register when out of work, if they desire to be dispatched again. Re-registration may be done in person, by telephone, or email. The practice of the dispatching offices shall be uniform to all registrants with respect to office hours or availability of registration.

In order for “B” list applicants to retain their registration they must “check in” with the selected dispatch office at least once each calendar month. Applicants who fail to “check in” shall have their names removed from the “B” list at the end of the month.

Any applicant who registers, re-registers, or “checks in” by email or leaves a recorded message or voice-mail at a dispatch office shall be responsible to later verify that said office has received the message.

SECTION 13. An applicant who is dispatched and who receives, through no fault of their own, less than 80 hours work, shall, upon re-registration be restored to their appropriate place within the priority group. Except that when it becomes necessary for a dispatcher from a different Local 162 dispatch point to call upon another dispatch office to fill a call for employment, an applicant who accepts such employment may work not more than 80 hours before losing their place on the list where they were originally registered.

SECTION 14. Appropriate notations shall be made opposite a registrant’s name when their name is reached for dispatch, showing the job and classification to which they were dispatched, their lack of availability or other reason that they have been passed over. If an inquiry is made by a registrant, they shall be given exactly the same information as to reason, etc. as appears on the notation.

SECTION 15. Any dispute regarding the operation of these dispatch procedures, whether by Employee or Employer, will be handled as provided in Article X of the Standard Form of Union Agreement.

SECTION 16. A copy of these procedures will be posted at each Local 162 dispatch office.

ITEM 21. JOURNEYMAN SHEET METAL WORKERS
A journeyman Sheet Metal Worker is any person who has previously worked for a signatory Employer in the Jurisdiction of Local 162 as a journeyman sheet metal worker and will be deemed to be qualified as a journeyman sheet metal worker.

The record of the Health Trust shall be prima fascia evidence of such employment and the Dispatching Office may conclusively rely thereon.

In the event no such record exists the employee’s status shall be conclusively determined by the Joint Examining Committee which may use, but not be limited to the criteria below.
Any workman who has worked elsewhere as a journeyman sheet metal worker for a period of five years (5) will be deemed to be qualified as a journeyman sheet metal worker. The Joint Examining Committee shall conclusively determine whether an employee has worked as a journeyman sheet metal worker for a period of (5) years or not.

All other employees desiring to be registered and be dispatched as journeyman sheet metal workers must show four (4) years’ experience with the tools of the trade and must pass a written examination and a practical test prescribed and administered by the Joint Examining Committee.

In every instance in which the Joint Examining Committee makes a determination it shall certify the result to the employee and Dispatching Office in writing.

**ITEM 22. APPRENTICES**

Whenever the Standard Form of Union Agreement refers to Apprentice Sheet Metal Workers it shall be amended to read indentured Apprentice Sheet Metal Workers.

Apprentices shall be part of an apprenticeship program that may require up to five (5) years of training and may work alone in their final year of apprenticeship. An Apprentice shall not receive a pay increase until he/she is approved for advancement by the Sheet Metal Joint Apprentice Committee. The advancement will be notified to the employer by a dispatch slip from the local union. Gross taxable wage rates for apprentices shall be a percent of taxable journey wage scale according to the following chart:

Any applicant whose application to the Joint Apprenticeship Committee has been accepted will be deemed qualified for dispatch on a probationary basis in accordance with the individual apprenticeship programs procedures. An Employer will not be entitled to a new apprentice if the Employer has an apprentice on layoff for lack of work.

Any Apprentice currently registered in the apprentice program will be deemed as a qualified Apprentice. Upon becoming a Journeyman an Apprentice shall be placed in dispatch group “A”.

---

ITEM 23. PRE-APPRENTICE (where applicable)
A Pre-apprentice shall be enrolled as an applicant for future openings in the apprenticeship program. The specific Joint Apprenticeship Committee having jurisdiction shall evaluate the qualifications of a pre-apprentice for indenturing as an apprentice during the first year of employment. No pre-apprentice should be retained beyond one year unless they have been deemed to be a qualified apprentice applicant and are scheduled to be indentured. The pre-apprentice taxable rate shall be at least 36% of the Building Trades Journeymen taxable rate. The wage scale for pre-apprentice shall be as set forth in the attached wage and fringe sheets. Health and welfare coverage shall be as provided under the specified schedules of the Northern California Health Plan.

ITEM 24. WORKER CLASSIFICATION RATIOS
It is hereby agreed that the Employer may apply to the Joint Apprenticeship Committee (see Article XI SFUA), and the Joint Apprenticeship Committee shall grant apprentices and pre-apprentices as specified for each specific bargaining/dispatch area for the first journeyman that he has in his employ. Upon increasing their work force by hiring additional journeymen the Employer may then employ additional apprentices and pre-apprentices based on companywide ratios. The individual bargaining/dispatch areas have negotiated separate apprentice, pre-apprentice and classified worker ratios as dictated by the prevailing area practice. Worker classifications are specific to the individual bargaining/dispatch area, individual classifications may not be available in all areas. To find the specific worker classification ratio available in each areas bargaining/dispatch zone refer to the following Building Trades ratio chart.

Sacramento, Chico, Redding bargaining/dispatch area: Apprentices start with a 1 to 1 ratio, when increased by an additional two journeymen, for a total of three (3) journeymen, the Employer may then employ an additional apprentice and pre-apprentice. On increasing their work force by another two journeymen, for a total of five (5) journeymen, the Employer may then employ an additional apprentice and pre-apprentice. On employing an additional three journeymen, for a total of eight (8) journeymen, that Employer may employ an additional apprentice and pre-apprentice. Thereafter, that Employer may employ one additional apprentice and one additional pre-apprentice for each three additional journeymen he employs. This personnel distribution will apply up until the time the Employer has a staff of twelve. For Ratio’s above twelve (12) journeymen, refer to chart. (2 to 1 ratio at 12 through 26 journeyman, then back to a 3 to 1 ratio)

Stockton bargaining/dispatch area: Apprentices can be dispatched on a 1 to 1 ratio as long as the unemployment within the bargaining/dispatch area does not exceed ten (10%) percent. If the unemployment exceeds 10% there will be a freeze on indenturing apprentices until such time as the unemployment drops below 10%. Pre-apprentices are dispatched when an employer employs at least one apprentice and two journeyman based on a ratio not to exceed twenty (20%) percent of the total company journeyman employment. There is no negotiated ratio for classified worker in this zone.

Modesto bargaining/dispatch area: An employer who employs at least one journeyman will be entitled to one apprentice, after which the ratio will be one additional apprentice for each three journeyman. When an employer reaches 10 journeymen regularly employed throughout the year they may increase to a ratio of 2:1, Journeymen to apprentice. The ratio of apprentices on a job shall not be more than one apprentice to one journeyman. However, this provision shall not be
imposed to provide a hardship on any apprentice. There is no negotiated ratio for a pre-apprentice in this zone.

**Fresno bargaining/dispatch area:**
The ratio of apprentices in all shops signatory to the four Counties (Fresno, Madera, Tulare and Kings) agreement with Local Union 162 (who qualify for apprentice training under the apprenticeship laws of the State of California) shall be established at the ratio of one apprentice for each three journeymen sheet metal workers regularly employed, based on an average of the past year as established by the Health Care and Pension reports. After ratios have been established, 2 additional apprentices will be added to those ratios. Each shop employing one (1) apprentice may employ one pre-apprentice. (9th and 10th period apprentices will not be counted against ratios)

### Ratios shall be as follows:

**Fresno Building Trades Apprentice/Pre-Apprentice Ratios**

ITEM 25. UNION REPRESENTATIVES’ JOB AND SHOP ACCESS

Representatives of the Union shall have access to places of employment of employees, with knowledge of the employer, for the purpose of observing working conditions and to see that this collectively bargained agreement is being carried out.

ITEM 26. AGREEMENT AND POLICY FOR THE PREVENTION OF SUBSTANCE ABUSE

The parties to this agreement recognize the problems which drug and alcohol abuse have created in the construction industry and the need to develop drug and alcohol abuse prevention programs. Accordingly, the parties agree that in order to enhance the safety of the work place and to maintain a drug and alcohol free work environment, individual Employers may require applicants or employees to undergo drug and alcohol testing as set forth below. The parties agree that if a testing program is implemented by an individual Employer, it may be accomplished only in compliance with the terms set forth below.

1. It is understood that while employees are on work time, the use, possession, transfer or sale of illegal drugs, narcotics, or other unlawful substances or alcohol is absolutely prohibited.

2. No Employer may implement a drug and alcohol-testing program unless written notice is given to the Union. Said notice shall be addressed to the Local Union and shall be delivered in person or by registered mail before implementing any testing program.

3. Pre-employment Testing: All applicants may be subject to a drug and alcohol test at a facility agreed upon by the Employer and the Union. The Employer agrees to pay each applicant who takes the drug and alcohol screen test for all the time it takes to undergo the drug and alcohol screen up to a maximum of two hours travel time plus lab time. Regarding: Fresno Apprentice Wage and Fringe Sheets
Effective - July 1, 2011 and January 1, 2012

To Whom It May Concern:

It has been brought to my attention that the recently distributed Wage and Fringe sheets for the Fresno Contract area are not in compliance with the National Pension Fund Trust Documents. In order to comply with the 2006 PPA and the 2008 WRERA an increase of $0.80 per hour for Apprentice NPF contributions needs to take place. This adjustment to the Apprentice NPF contribution should have taken place during the recent negotiations for an extension of the Fresno Area Collective Bargaining Agreement.

Although, there is no excuse for this oversight, in order to avoid government mandated surcharges the increase needs to take effect July 1, 2011. The attached Wage and Fringe Sheets reflect the increase and the New Fresno Sector Apprentices NPF contribution of $1.72 per hour.

Sincerely,

Dennis R. Canevari

To Whom It May Concern:

Sheet Metal Workers’ Local 162 covers 29 counties within the Northern and Central California Valley. Although, there is only one Collective Bargaining Agreement there are four (4) separate bargaining sectors creating the negotiated wage and fringe rates for counties they cover: The Sacramento, Stockton and Modesto sectors are at, or near the end of their respective bargaining agreements. And the Fresno sector bargaining agreement will expire on June 30, 2011.

A successor Bargaining Agreement for the Fresno sector has been negotiated which extends the contract for three (3) years, modifies working conditions and apprentice ratios. The three remaining bargaining sectors (Sacramento, Stockton, and Modesto) were approached by the area Contractors Association’s requesting a modification to the previously negotiated July 1, 2011 contract increases. The negotiations that took place in all bargaining sectors enabled the employers and employees to address the current construction climate and benefit obligations.
